About Teddish Dating Service Teddish helps people find love and companionship, a better, safer way by vetting prospects with personal interviews and verifying background information while going on fun adventures. The private membership club for singles & single parent families is dedicated to positive social impact and supporting small businesses and nonprofits.

The company is a fresh twist aimed at disrupting the dating industry by restoring truth, authenticity and excitement back into the dating scene. The company name is an homage to the father and son of company founder Coren Stewart. “My best ‘dates’ were with my Father, Ted when we went to Red Sox games. I experienced love at first sight with the birth of my son Teddy who has always been my favorite Valentine. When friends would ask me how my blind dates went, I would reply, ‘I wish he could be more of a combination of the two best men I know... I wish he was more Teddish.’” Like Teddish on Facebook and Instagram. Beginning Valentine’s Day you can visit our website Teddish.com and sign up for our newsletter to stay informed.
